

SHIZA SULTAN

Frontend Developer and Web Designer

+92 3054576377 | shizasultan117@gmail.com | [linkedin](#)

TECHNICAL SKILLS

- Languages: JavaScript, C++
- Web Dev: HTML, CSS, Bootstrap, Tailwind, React JS, Next JS, firebase, Git & GitHub
- Expert: MS Word, Power Point, MS Excel, AI Prompt Engineering, English Speaking, Team work

EDUCATION

Government University of Faisalabad

2023-2027

Bachelor of Science in Computer Science

CGPA: 3.34 / 4.00

Web Designing

I completed a web designing course from SMIT Institute, where I gained practical experience in responsive web design and front-end development using HTML, CSS, and JavaScript.

Web Development

I completed a Web Development (MERN Stack) course from SMIT Institute, where I gained hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. The course helped me strengthen my skills in front-end development, API integration, and database management, and it taught me how to create dynamic, responsive, and scalable web projects.

Personal Projects

I have built several projects to strengthen my skills in frontend development. These include a **Redux Login System** using Next.js and Redux Toolkit for global authentication, an **E-commerce Website** with responsive design, product search, and filtering, a **Food Website** showcasing menus and smooth animations, and my own **Portfolio Website** built with Next.js and Tailwind CSS to display my work. Each project demonstrates my ability to create responsive, interactive, and user-friendly web applications.

ABOUT ME

Computer Science student skilled in web development with experience in HTML, CSS, and JavaScript. Focused on building responsive, user-friendly web applications and advancing toward full-stack development through project-based learning and practical experience.
